

ADITYA RAJ

Senior Software Engineer | Java | Full-Stack | Google AppSheet | GCP

Bengaluru, Karnataka | +91 9570119979 | iadityaraj1412@gmail.com | linkedin.com/in/iadityaraj1412

PROFESSIONAL SUMMARY

Results-driven Senior Software Engineer with 2+ years of experience designing and maintaining enterprise-grade Java applications using Spring Boot, Google Cloud Platform (GCP), Google AppSheet, SQL, REST APIs, and Apache Airflow. Skilled in production support, incident management, root cause analysis, API integrations, workflow automation, and scalable backend development. Demonstrated success in optimising cloud-based data pipelines, modernising authentication systems, and delivering reliable business-critical solutions in Agile environments.

TECHNICAL SKILLS

Programming Languages: Java, SQL, JavaScript, HTML5, CSS

Backend Frameworks: Spring Framework, Spring Boot, Node.js, Express.js, REST APIs, MVC, JDBC

Frontend Technologies: React.js, Angular, AWT

Cloud & Low-Code: Google Cloud Platform (GCP), Google AppSheet, GenAI, Cloud Composer, BigQuery, Apache Airflow

Databases: MongoDB, SQL Server, Database Schema Design

Tools & Platforms: Git, Postman, Visual Studio, Eclipse, Android Studio, Flutter, ServiceNow

Methodologies: Object-Oriented Programming (OOP), Data Structures & Algorithms, MicroServices, Agile / Scrum

Core Competencies: Production Support, Incident Management, Root Cause Analysis, API Integration, Workflow Automation

PROFESSIONAL EXPERIENCE

Senior Software Engineer | Capgemini (Client: APTIV / Versigent)

Bengaluru, Karnataka | Jul 2026 – Present

- Provide production support and ongoing maintenance for 7+ enterprise Java Spring Boot and Google AppSheet applications, ensuring 99%+ uptime and rapid incident resolution.
- Migrated multiple legacy SharePoint file-transfer scheduler jobs to Microsoft Graph API following Microsoft's April 2026 deprecation of legacy authentication, strengthening security and eliminating reliance on deprecated protocols.
- Optimised a GCP data pipeline using Apache Airflow (Cloud Composer) by refactoring DAG logic and parallelising tasks, reducing end-to-end processing time from 90 minutes to 90 seconds (60x improvement).
- Resolved 200+ production incidents with thorough root cause analysis and preventive documentation, reducing recurring issues by 30%.

Software Engineer | Capgemini (Client: APTIV)

Bengaluru, Karnataka | Oct 2024 – Jun 2026

- Engineered enterprise applications using Java, Spring Boot, REST APIs, and Google AppSheet, supporting critical business workflows used across multiple teams.
- Integrated external APIs and third-party services, automating data ingestion processes and reducing manual effort.
- Reviewed code, enforced coding standards, and contributed to CI pipelines, improving code quality and deployment reliability.
- Received the Capgemini 'Champion' recognition for consistently high-quality technical delivery and client satisfaction.

Node.js Developer Intern | Celebal Technology

Remote | Jun 2023 – Aug 2023

- Developed and tested RESTful backend APIs using Node.js and Express.js, supporting a full-stack web application.
- Architected MongoDB schemas to improve data organisation, storage efficiency, and query performance.
- Collaborated in code reviews and followed best practices for asynchronous JavaScript development.

PROJECTS

Electricity Billing System | Java, Swing, MongoDB

- Built a desktop application to manage customer records, meter readings, and automated billing calculations through an integrated management interface.
- Implemented CRUD operations with MongoDB persistence and a Swing-based GUI, streamlining data management and retrieval.

Employee Management Website | Node.js, Express.js, MongoDB, HTML5, CSS

- Created a full-stack employee management application featuring RESTful APIs for employee CRUD operations
- Developed a responsive frontend integrated with a Node.js/Express.js backend and MongoDB database, enabling seamless data management.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Engineering

Lovely Professional University, Phagwara, Punjab | 2020 – 2024 | CGPA: 7.79 / 10

CERTIFICATIONS & ACHIEVEMENTS

- Capgemini Certified – Java Full Stack (React) | May 2025
- Microsoft Certified: Azure AI Fundamentals (AI-900)
- Microsoft Certified: Azure Fundamentals (AZ-900)
- AWS Certified Cloud Practitioner
- Solved 300+ LeetCode problems and 200+ GeeksforGeeks problems, demonstrating strong DSA skills.
